Fédérer un mouvement associatif diversifié

En favorisant la mise en réseau des associations, l'FNE permet aux citoyens, confrontés aux mêmes difficultés, de partager leurs expériences.

Climat, biodiversité, milieux naturels, agriculture, forêt, eau, risques industriels, prévention des déchets, économie verte... l'FNE met son expertise et ses compétences au service des associations de terrain.

En s'alignant dans des centaines de commissions de concertation aux côtés des syndicats, des élus, des entreprises et des collectivités, France Nature Environnement fait entendre la voix des militants bénévoles.

Instaurer plus de justice

l'FNE veille et contribue à l'information et à l'éducation des citoyens et rigueur. Elle propose des alternatives et suit la justice lorsque le droit de l'environnement est bafoué. La fédération agit également non seulement juridiquement, mais aussi en éduquant les citoyens sur les enjeux des actions en justice.

Alerte l'opinion à chaque menace pour l'environnement

l'FNE informe et alerte la grande public à chaque menace pour l'environnement. Sa tâche essentielle est de mobiliser le plus grand nombre possible d'habitants pour obtenir des changements politiques ambitieux, à la hauteur des enjeux environnementaux. C'est pourquoi France Nature Environnement insiste pour le développement de l'éducation à l'environnement.
